

# Hi-tech rechargeable taillight Red Line

Product code: ABR0021

## Specification:

Charging time:	2 h
Operation time:	100% 3h, 30% 16h, Pulse 15h, strobe 18h
Weight:	22 g
Visibility:	270 stopni
Dimensions:	70 × 29 × 18 mm
Power supply:	USB; Li-poly 3,7V 300mAh
Light source:	COB LED
:	22

## Product description

The rechargeable Red Line taillight pushes the technical line by replacing single bulbs with a bright 20 lm LED panel for 270° of protection.

The Li-Poly battery holds 3 times the energy than traditional batteries for more light at less weight. Equipped with charging and low battery indicators. Unlike regular batteries that dim as they drain, a built-in voltage regulator prevents the brightness from dropping off. The light easily survives rear wheel spray while riding in a driving rain (IPX4).
